

Communicator

Communicator from [CloudSecure](#) is a hosted IP Telephony (IPT) system designed for multi-site businesses that offers powerful call features to reduce your communications costs and improve the productivity of your company. Communicator is the ideal solution for SMEs with one or more sites and a requirement for future proof, reliable communications. Installation is quick and cost effective, and existing telephone numbers can be kept in order to maximize the flexibility and cost savings that IPT offers.

Cost and productivity benefits

- Plug 'n Play technology - easy to use and manage
- Lower call costs and free calls between sites
- Minimal infrastructure requirements - no new PBX or major capital outlay
- Add extensions to systems easily and cost effectively
- Manage your telephony through online control panels, saving manpower costs

Advanced call features

- Fully customisable voicemail
- Auto-attendant options ensure that calls are always routed to the correct person
- Login and authentication to safeguard against unauthorised use
- Access personal settings from any phone in the company or remotely
- Advanced group calling features to prioitise workload

What we can do for you...

[CloudSecure](#) delivers your data, network, software and communications as managed services. Our hosted solutions in Security, Business Continuity, Voice, Messaging and Collaboration enable companies of all sizes to streamline business processes, excel in productivity and reduce operational costs.

Most importantly, our managed services give you the option to have the entirety or part of your IT taken care of, leaving you to concentrate on what is vital to your business - your customers.
