

# LCR – Least Cost Routing

Least or Low Cost Routing (LCR) enables phone calls to be made using an alternative network, either through direct routing or by using a pre-programmed access code. Alternative networks have their own infrastructure that carries calls throughout the UK and worldwide, offering cheaper call costs than the traditional supplier.

## Your benefits...

Using a straightforward administrative procedure, [CloudSecure](#) can quickly and easily set up access to an alternative lower cost network for you, with all your telephone numbers remaining the same, with no impact on your current line connections. We offer not only very attractive call costs and excellent value, but also back network access with exceptional customer service and reliability.

## What we can do for you...

[CloudSecure](#) delivers your data, network, software and communications as managed services. Our hosted solutions in Security, Business Continuity, Voice, Messaging and Collaboration enable companies of all sizes to streamline business processes, excel in productivity and reduce operational costs.

Most importantly, our managed services give you the option to have the entirety or part of your IT taken care of, leaving you to concentrate on what is vital to your business - your customers.

**Call us on 0208 943 2222 for more information on our Least Cost Routing services or visit [www.jcom.co.uk](http://www.jcom.co.uk)**
